

PROJECT LOCATION

San Francisco, CA

DATE OF ACTIVATION

June 2015

CORE USE CASE

Promote events, enhance presentations, and showcase featured authors and titles in a space that serves as a creative outlet for teens to come together and share ideas.

SOFTWARE

- ThinkHub
 - Interactive Canvas allows users to create and upload content including notes, sketches, images, PDFs, PPTs, and videos.
 - Supports unlimited wireless device sharing
 - Multitouch Web Browser
 - ADA-Voice controls for the visually-impaired

HARDWARE

- 55" Touch film interactive transparent display
 - Networked computer
 - Projector
 - Transparent touch film wall

This ADA-compliant Interactive Wall provides a space to encourage teen innovation and creativity, accessible to all.
